1st MAY 2004 - WORLDWIDE PEACE DEMONSTRATION

**The Committee of the Representatives of the Republic of the Earth,
remembering that:**

since 1947, wars broke out in the territories of Angola, Cameroun, Ciad, China, Cyprus, Comoro, Gibuti, India, Indonesia, Israel, Yugoslavia, Morocco, Myanmar, Namibia, Pakistan, French Polynesia, Russia, Mountain range Lion, Spain and of other Countries of Africa, the Latin America, Asia and Europe, not saving even the United States, and are still happening in Aceh, Afghanistan, Algeria, Burundi, Cecenia, Colombia, the Congo, Coast of Ivory, Eritrea, Ethiopia, the Philippines, Haiti, Iraq, Kashmir, Liberia, Nepal, Nigeria, Palestine, Centre African Republic, Somalia, Sri Lanka, Sudan and Uganda;

such conflicts, the ones wanted by the states and the civil wars and the terrorism acts, have caused the mutilations of millions of people, soldiers and civilians, men, women, children, plus immense economical and social damages, much higher than the ones caused by the planet's natural disasters;

each year, war industry costs nearly 800 billions of US Dollars, par to the 2.5 per cent of the world's wealth, more than double the amount sufficient in order to solve the problem of hunger and of illnesses in all the world;

considered that:

the war's causes are several, but originally all basically referable to economic interests, even if they often used falsely and as pretext appear represented by conflicts between ethnic groups and races or between different religious ideals;

the uncontrolled diffusion of weapons of mass destruction of any kind and type is, today more than yesterday, an extremely serious danger for all humanity, because, as effect of the current communication means, even a small hotbed of war can attract forces from different Countries and create substantial arrays, that in the end can lead to worldwide conflicts;

every attempt to achieve peace as result of a process has been vain, then, as principle, it is necessary to consider peace as requirement of general interest to face the most felt and urgent problems of human kind;

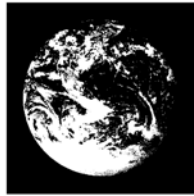

stating that:

today, there is no Country that, on its own or by using others, can control the world and bend it to its will, neither it can keep dominating other Countries and their resources to guarantee its own exclusive well-being;

peace, intended as fundamental choice, is now possible, because the majority of the inhabitants of the Earth has demonstrated, through numerous demonstrations, to prefer peace to war and dialectic comparison to violence;

freedom, justice, well-being and solidarity today are possible, because the technological progress allows humanity «in its entirety» to make those who are in

bad conditions feel better without having to make those who are in better conditions to get worse;

we invite:

the social, civil, political, economic, moral and religious forces of all the Nations to call, on Saturday the 1st of May 2004, in the capital of each state, for a demonstration to demonstrate the peoples' will to make every act of violence in the world stop immediately;

the organisations that have struggled until now for the world's peace, with their protest and opposed them selves to all wars, to undertake the direct responsibility of guaranteeing, with concrete messages and initiatives, that any violent act will be excluded in every Country where such organisations have people prepared to engage towards this aim;

all the state's and people's forces that have decided war and violence as a fighting mean to stop or make stop immediately, with intelligence and good faith, any operation of this kind, to allow who struggles for peace to demonstrate that there is another way to solve conflicts;

we also invite:

whoever thought of using this initiative for his/hers personal particular purposes, or to affirm his desire to be the centre of attention in the struggles towards peace, for freedom and justice, to consider that, for once and for a reason important as this one, instrumentations mustn't exist, they would be acknowledge and anyway condemned by everyone;

whoever uses hostages or things belonging to others to obtain results, to free immediately the people and to give back immediately things to their legitimate owners, demonstrating their morality and good faith and accepting the opinion of the peoples that will attend this invitation for peace;

whoever tries to prevent this initiative because of his/her fear to renounce to his/her own privileges to realise that it's better to renounce to some privilege than to suffer the effects of a whirling and uncontrollable violence process that seems unstoppable and that only an initiative like this one can prevent it from becoming irreversible.

Together it is possible, believing in human beings' intelligence and sense of good.
